Subject: Facebook pages - links [SEC=OFFICIAL:Sensitive]

Hi Louise,

Alex and I have looked through the screenshots and found the following:

Two pages associated with Mr Laming have now been removed – screenshots we've been using have included direct URLs to the pages, and we can confirm the links are no longer active. The short URLs for each page are:

Thornlands 4164 – www.facebook.com/ThornlandsQLD
Redland Hospital: Let's fight for fair funding – www.facebook.com/RedlandHospital

We would suggest a reasonable approach here would be for you to contact Facebook, provide the above links and a list of dates and times for relevant posts to be retrieved.

The other page – Redlands Institute is still live and all of the links are below:

Redland Institute

Assuming you already have but also a good idea to be taking screen shots of everything – including the page bio's as they can change at any time.

Let us know if you need anything else!

Cheers,
Bella
