Good morning,

The AEC is aware of s 47F which breaches TikTok's Integrity and Authenticity policy by:

- Falsely claiming that Australia's 2010 Federal Election was won by a smaller margin than the number of alleged multiple votes
- Falsely claiming that dead people are enrolled to vote
- Falsely claiming that identification is not required to enrol to vote
- Falsely claiming that one specific party is engaged in widespread electoral fraud

The video is also in breach of Section 321D of the *Commonwealth Electoral Act 1918* as it does not contain both a written and spoken authorisation message.

Grateful for swift action on this, as the claims being made are very serious.

Thanks and kind regards,
