Dear AEC Electoral Integrity team

Further to our discussion earlier this year on the referendum and the visit by the EIAT delegation to Redmon in a couple of weeks' time, I hoped the AEC could assist with providing some information to assist in Microsoft's efforts to combat dis- and misinformation on our services.

In particular, we hoped to have a list of common misinformation narratives the AEC is observing. This will enable us to put appropriate measures in place to support the integrity of the information ecosystem.

I understand AEC plans to have a misinformation register, as during the federal election, but in the meantime, I would welcome your advice on current trends, as well as your thoughts on how we can access and update this information as the campaign progresses throughout the year.

Please feel free to give me a call if easier to discussion.

With many thanks
